THE 3 GREATEST FLORIBUNDAS EVER CREATED!

1 Fashion The ONLY Rose Ever to Win 6 International Awards!

(Left) Fashion is indeed the finest Floribunda ever created! For nowhere is there another Rose to match Fashion's breath-taking color... luminous coral-pink suffused with gold. We wish it were possible for us to even adequately describe Fashion's unusual color, but no words or color photos could capture its bright pinkish luminescence. It produces hundreds of Roses on every bush... hundreds of exquisite oriental-red buds which are slowly transformed into miniature Hybrid Teas up to 3½" across. Graceful wavy petals and a rich display of golden yellow stamens add even more beauty to the open flowers. (Pl. Pat. No. 789). \$2.00 ea.; 3 for \$5.25; 12 for \$21.00; 25 for \$45.00

2 Vogue Winner of 5 International Awards!

(Left) The rich cherry-coral of Vogue is only one of its outstanding features. The opening of its dark ovoid buds is a show in itself. Slow opening, these buds evolve into perfectly formed blooms that are high centered and reach from 3 to 4 in. across. The graceful flowers are in evidence in medium and large clusters all season long. 2½ to 3 foot bush is compact and bushy with an abundance of dark green leathery foliage. A carnation fragrance pervades. Ideal for foundation planting. Its upright growth makes it excellent to plant along a wall or to form a hedge. Vogue will dress your garden all season long. (Pl. Pat. No. 926) \$2.00 ea.; 3 for \$5.25; 12 for \$21.00; 25 for \$40.00

3 Ma Perkins

(Right) The lovely Ophelia shaped buds of translucent light Fashion color open up to graceful cup-shaped flowers. The 3½ to 4 in. blooms begin a sparkling coral shell pink color and finish a lovely shell-coral suffused with yellow. This 1953 All-America Selection Award Winner has the fragrance of honey, cloves and cinnamon. Flowers of this generous bloomer appear in clusters and sing all season long. The 2½ to 3 foot bush is strong, compact and resistant to disease and pests, in addition to being able to thrive under difficult conditions. Plentiful rich green foliage. Makes an excellent border or hedge. (Pl. Pat. No. 1143). \$2.25 ea.; 3 for \$6.00; 12 for \$24.00; 25 for \$45.00

Independence

REDDEST

Independence grows from 2½ to 3 feet in height, producing great quantities of foliage and forming a very compact bush. It does not fade or lose its color in the sun. This beautiful Rose actually blooms up to 4 inches across. Really large blooms for a Floribunda. The color is definitely one of the most scintillating hues we have ever seen. It possesses a moderate old-fashioned Tea Rose fragrance. Independence is a truly lovely Rose and one that will enhance your garden for many years to come. (Pl. Pat. No. 1036). \$2.25 ea.; 3 for \$6.00; 12 for \$24.00; 25 for \$45.00

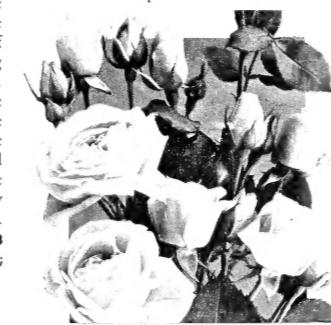

Pinocchio Salmon Pink!

(Below) Thousands of our customers know and love the widely acclaimed Pinocchio Rose. Its delicate beauty goes straight to your heart. Great clusters of gracefully pointed buds of rich salmon flushed with gold at the base open up to long-lasting exhibition-formed blooms like miniature Hybrid Teas. As the "sweetheart" flowers open, they change to soft lucid pink and shade into deeper pink at the edges. This persistent bloom continues all summer long. The 20 to 24 inch plant is extremely hardy. The ample, rich dark green foliage is very disease resistant. The cool pink masses are refreshing in mass planting and edgings for paths, drives, beds and borders. (Pl. Pat. The remarkable profusion of heavy flower clusters covers the plant during late June, July, August and September. It has a sweet, elusive fragrance. Light green attractive foliage enhances the plant. Reaches a height of 20 in. or more. (Pl. Pat. No. 416). \$1.50 ea.; 3 for \$3.90; 12 for \$15.60; 25 for \$30.00

The nutty fragrance adds to its charm when used in flower arrangements or nosegays. Hardy and easy to grow. \$1.50 ea.; 3 for \$3.90; 12 for \$15.60; 25 for \$30.00

The golden yellow center bud in each cluster opens first, becoming rose-pink as the petals unfold. Gradually the rose-pink deepens until at last it is deep red.
